PRESENTING, THE WOMANEER MANIFESTO FOR CONSCIOUS SELF LEADERSHIP
(Based on the tenets of conscious business and good sense.)

The Womaneer Manifesto articulates essential principles that we believe will dramatically increase Positive Success and self leadership for the expressed purpose of creating, inspiring and leading meaningful, affluent lives and careers for professional women and all who know them while improving well being and uplifting each other. As a global community of women we are committed to developing the self awareness and skill needed to consciously grow ourselves in alignment with the principles of deep well being.

The principles are as follows:

WOMANER™ MANIFESTO ©

1. Consciously courageous self leadership. Organizations, teams and homes mirror the actions and personality of the people at the top.
2. Inclusive orientation. Consciously courageous leaders know the importance of taking into account all of their stakeholders.
3. Self awareness is the bedrock of Positive Success
4. Higher purpose. Beyond the little and the big things we do daily there is a deeper – higher – inner purpose. (use your preferred word)
5. We are one with humanity and all of life as the teaching of Ubuntu, Botho, Ma'at show us. (replace the appropriate teaching of your choice) I am an integrate part of a single reality – interdependent – interrelated – interconnected.
6. Aligned to this shared reality, my purpose is to improve my health, wealth and wisdom for the ultimate aim of well being.
7. My choices support the well being of the earth increasingly.
8. I behave as a positive, affirming and proactive member of the African and global community.
9. We each believe in our respective ways that:
 - I am a physical extention of that which is non-physical/ holy/ spiritual (use you preferred word)
 - I am in this body because I chose to be here.
 - The basis of your life is freedom; and the purpose of my life is joy
 - I am a creator; I create with my each and ever thought
 - Anything that I can imagine is mine to be do have or give and share
 - As I choose my thoughts, my emotions are my best guide and indicator of outcomes/ experiences I am creating
 - The Universe/Source/ God/ the ancestors/ Jesus/ Buddah/ Allah (select the most relevant word for you) adores me as I am due to awareness of my broadest intentions
 - I may also relax into my natural state which is well being. All is well. It really is.
 - I am a creator of thought patters, paths and habits on my unique journey to joy
 - The actions taken and possessions exchanged are by-products of my focus on joy
 - I may also depart my physical body without illness or pain.
 - I and we all cannot die, I am everlasting life.
10. The essence of that which is like unto itself, is drawn.

11. In your joy you will grow; and in your growth you add to the expansion of all-that-is.
12. The more intense your positive feelings, the faster it is coming to you.
13. There are no limits to your joyous journeys to experience.
14. In every community, there is work to be done. In every nation, there are wounds to heal. In every heart, there is the power to do it.
15. It is not necessary for even one other person to understand this manifesto or the processes mentioned here for you to have a wonderful, happy, productive life and career, you are the maker of your experience – only you.
